WIK
AIR

AIR

In today's hectic pace of big city life, it is important to be reminded that we are an intrinsic part of nature. We are creators whose activities and work today will shape the future world of tomorrow.

To get back to nature and create a sanctuary of calm within the working environment, I have created a tranquil oasis for the workplace. The ambience should remind us to conserve nature and preserve our identities. My designs are a representation of the modern workplace, with the feel of free contemporary interior space. Functional and light like pure nature, clear water and fresh air.

Architect Gediminas Juška

Nuolat skubantis didmiesio žmogus netur t užmiršti, jog vis pirma jis yra gamtos dalis, kurio veikla ir darbai lemia, kokiame pasaulyje gyvensime rytoj.

Nor dadas tai priminti, k riau gamtos oaz darbo vietoje, kuri reikia puoselėti ir prižiūrėti lyg miniati rin sod , gryninant aplinkos or . Manau, kad šiulaikin darbo vieta turi b ti funkcionali ir lengva, kaip švari gamta, skaidrus vanduo bei grynas oras.

Architektas Gediminas Juška

Ambition requires clarity. An executive needs space.

Tikslui reikia aiškumo. Lyderiui - erdvės.

AIR EXECUTIVE

Executive

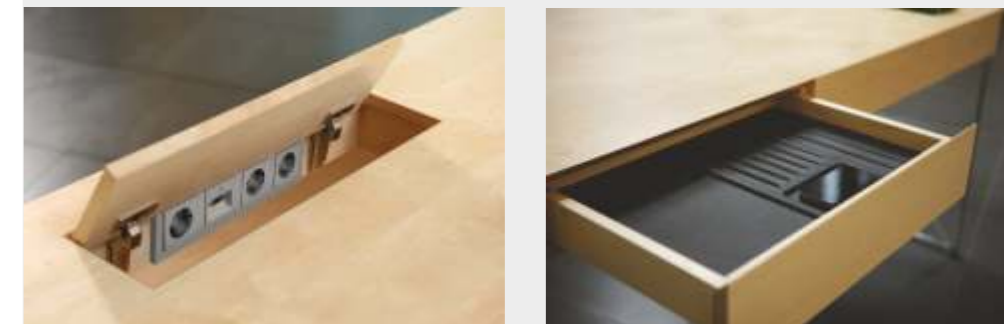

Lyderiui

This top of the range executive desk features a solid desktop covered in a beautifully natural wood veneer. With durable style and ease it rests gracefully on slender chromium-plated steel legs, creating the cool illusion of floatation above the floor.

A unique and cleverly concealed IT wire management system is safely hidden inside thin steel tubes within the hollow structure of the slim legs. This allows for a convenient electrical and high-speed internet connection solution. It also enables the creation of a clutter-free work space, which can promote an efficient approach to your daily work.

Šis stalas išsiskiria masyviu, natūralaus medžio lukštu dengtu tvirtu stalviršiu, kuris tarsi kybo ore - „išsisi“ ant gražios, plonios chromuoto plieno kojelių, kurias tauriai vaizduoja.

Lengva kojų konstrukcija turi dar vieną „paslaptį“ - plonius plieno vamzdelius išvedžioti interneto bei elektros laidai, todėl stalas išliks tvarkingas ir jūsų darbo vietoje.

The sleek furniture from the AIR range is designed for comfort and functionality. The AIR conference table contains a handy, concealed convenience space for notebooks, paper and pens. It has hidden internet and electrical connection solutions for laptops or mobile phone chargers. The central grass feature can be removed to reveal a channel that holds user-specified accessories for a neat and tidy conference table. The design appeal of the AIR range is aimed at professionals to reduce clutter, keep the desktop clean and tidy in order to promote an efficient working environment.

«Air»

Air baldai - funkcionalūs, sukurti taip, kad vadovas ir jo komanda jaustųsi patogiai. Posėdžių stalų stalviršyje yra ertmės bukletams, popieriaus lapams, pieštukams. Čia paslėpti ir interneto, elektros laidai, o mažasis „žemės sklypas“ stalviršyje gali būti naudojamas mineraliniam vandeniui ar popieriui susidėti, kad stalas liktų švarus, neapkrautas.

AIR EXECUTIVE

The clean and aesthetically pleasing design will enhance the overall ambience within your office environment. The drawers on all cabinets, cupboards and chests of drawers are handle-free for a seamless look. All drawers in the Executive's Range close smoothly and silently.

Chest of drawers can be wall-hung with their legs removed to create a visual floating effect. Elegant floating shelves are minimalistic yet functional.

Visos spintos, spintelai ir komodos gaminamos be rankenėlių. Kuriamas švarus, vientisas vaizdas, siekiant išvengti nereikalingo aplinkos „triukšmo“ - net stalai vadovo darbo vietoje užsidaro tyliai.

Lentynos kabinamos ant sienų. Komodos gali būti statomos ant plieninių kojų arba taip pat tvirtinamos prie sienų - tokiu būdu išlaikant lengvumo, „sklendimo ore“ pojūtį.

Mark your team's path to success with vibrant colours.

Nebijokite spalv . J komandos kelyje - daug.
