

Wyspa

profim

"When creating Wyspa, there were no similar products on the market. Free and without any limitations or references we designed a new archetype of furniture. Until now there were walls and there were seats, but Wyspa combines both in a very unique way."

Christopher Schmidt, Mugi Yamamoto
Product Designers, ITO Design

reddot design award
winner 2015

New furniture archetype.

Wyspa allows flexibility in planning personalised spaces for a broad range of situations. An innovative design with a unique backrest element, Wyspa is well suited to modern open plan spaces and creates islands for collaboration. Wyspa does not only provide a room within a room - which is acoustically and visually shielded, but inviting spaces for social interaction.

Design

Regardless of the situation – ad-hoc meetings, concentrated communication or quiet spaces, Wyspa has been designed for collaboration in modern open communication environments.

Fine workmanship

Each element in Wyspa is characterised by precise workmanship. The choice of fabrics, stitches and technological solutions give the collection a unique character.

Personalised

Wyspa's soft form and rich colour palette adds life to space and sets the stage for interaction. A large selection of fabrics and finishes can be combined for any situation.

Measurements

The measurements are approximate and can differ depending on the product configuration.
 Measuring methodology is available at this link: www.profim.eu/Measuring_methodology.pdf

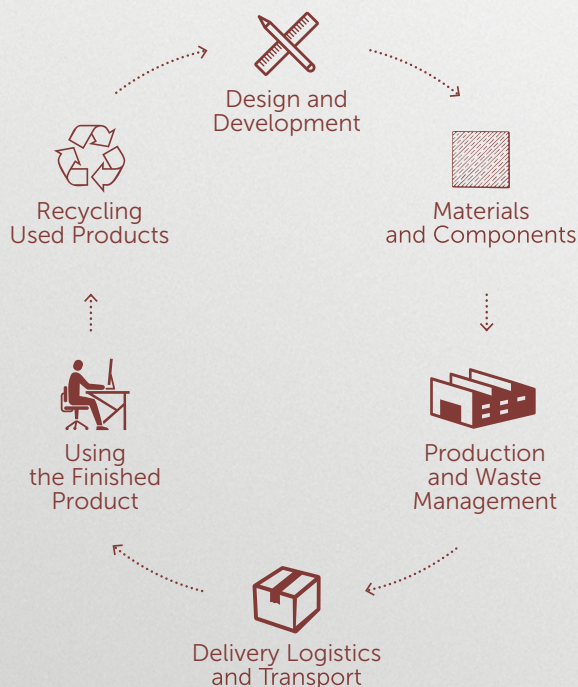

* Seat height is measured according to PN EN 16139 norm (with seat burden).

Due to the volume and weight of pieces from this collection, the minimum number of people needed for unloading deliveries is four. The boxes are shipped on wheeled wooden pallets.

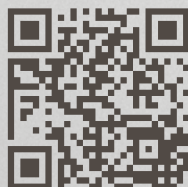

Profim and the Environment

In our operation we follow the sustainability principle. We operate in a responsible manner for the benefit of our customers, employees, suppliers, and the local community, but we always respect the environment.

In order to achieve our goals, we have implemented Environmental Management System based on the ISO 14001 standard, which allows for a comprehensive approach to ecology. We take into consideration and evaluate the way Wyspa products affect the environment during their entire life cycle.
